1. We are interested in receiving ☐ views on the possibility of exploiting Tinaj to establish a secure communications link between KUBARK and a principal agent in Yugoslavia for the purpose of securing regular reports on Yugoslav activities respecting Albania. We would therefore appreciate answers to the following questions, obtained through ☐ if necessary, but as discreetly as possible:

- a. Would Tinaj be interested in returning legally to Yugoslavia for a period long enough to establish such a link? Could he then exit legally? (Naturally, if his eye condition is such as to prevent travel, we would be willing to wait until it had improved.)
- b. Is subject intelligent and literate enough to absorb training in S.W. and in time train a third party in Yugoslavia?

2. In order to overcome subject's undoubted reluctance to return to Yugoslavia we would be willing to assume (within reason) the costs of his medical treatment until he leaves for Yugoslavia, to pay him a regular salary of \$100 per month during the mission (including a three-month preparatory phase during which he would receive training and briefing). We would also be willing to pay him a lump sum, not to exceed \$500.00, after his return, payable on the arrival of the first letter through the new channel. This would be the final payment, unless subject continued to be used for other purposes.

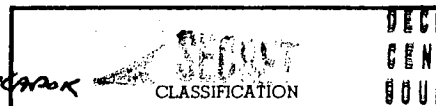

3. If ☐ feels there is some prospect of mounting an operation with the aid of the Italian Services we would be interested in receiving MIC I and II on subject to institute an operational clearance. Should this operation eventuate we should wish the KUBARK connection to be as well insulated as possible.
